1. General

description

Extension: advanced order search > cooperation statistics

The 'cooperation statistics section in the advanced order search has been optimised so that sorting, filtering and searching now produce results more quickly.

2. xArc

description

Extension: file upload in manual posting

The process for adding documents for archiving has also been updated in the 'manual posting' section, so that a) multiple documents can be attached and b) the procedure is consistent across all areas.

The screenshot displays the 'manuelle Buchung' (manual posting) screen. At the top, there are tabs for 'Übersicht' and 'Buchhaltung manuelle Buchung'. The main area contains several input fields: 'Datum' (29.05.2026), 'PRE', 'Fixkonto', 'Saldo', 'FW', 'Betrag' (0.00), and 'Vorjournal' (checked). Below these are fields for 'Saldo', 'Split', 'KoSt', 'Split', 'OP', and 'UID'. A table-like structure shows columns for 'MwSt. %', 'Betrag', 'Belegnr.', 'Belegdatum', 'fällig', 'MwSt Monat', 'fix', 'Aktion', and 'Auftrag'. A 'Text' field is present, with a red box highlighting a paperclip icon next to it. A modal window titled 'Dokument hochladen' is open, showing 'Barcode' and 'Beleg' fields, and 'speichern' and 'abbrechen' buttons. At the bottom, there is a 'Stapel' section with a sum of 0,00 and a table with columns: 'Datum', 'S', 'H', 'Betrag', 'FW Betrag', 'FW Code', 'Kurs', 'Text', 'Beleg', 'St.schl.', 'OP (S)', 'OP (H)', 'KoSt (S)', 'KoSt (H)'. A 'Buchungen' button is visible in the bottom right corner.

Legend

Extension = Software extension, new function may be associated with additional costs. Please contact your support if you are interested, we will be happy to help you with advice.

Bugfix = Fixing of errors
