1. Customer

Description

Extension: extended customer search

The data record search did not work correctly in the extended customer search.

This has been fixed so that the search now works.

The screenshot displays the 'Kundensuche' (Customer Search) window. The search criteria are set to 'Land: Deutschland'. The search results table is as follows:

Nachname/Firma	Vorname	Strasse	Kundennr.	Debitornr.	Aufträge
Reisemann	Lisa	ststr.1	839	2696045	1 8

2. Order

Description
<p>Extension: Display of supplier names in the search options</p> <p>The display of supplier names in the search options of the advanced order search (areas Order, Participants, Services etc.) and also under Reporting > Statistics, as well as in all other affected areas, has been extended from 10 to 15 characters. As before, longer names are labelled with '...' at the end.</p>

3. Accounting

Description
<p>Extension: Enhancement of the open item list for working with foreign currency</p> <p>From now on it is possible to filter for open items in standard currency, foreign currency or both when calling up the open item list. The departure date has also been added as an additional search criterion. This option offers the possibility to display journal entries in foreign currency.</p>

Legend

Extension = software extension, new functions may be associated with additional costs. If you are interested, please contact the support team, who will be happy to advise you.

Bugfix = error correction
