

Release Notes

xMid Version 26.02

Content

1. General.....	2
2. Order.....	2
3. Accounting.....	3
Legend.....	3

1. General

description
<p>Extension: List of airlines</p> <p>The list of airlines has been expanded to include Easyjet Europe (code: EJU), Star East Airlines (code: SEK), Sky Vision Airlines (code: SVI) and Lufthansa City Airlines (code: LHX).</p>

2. Order

description
<p>Extension: PDF documents – display in price block</p> <p>The colons have been removed from the PDF documents in the price information section below the services.</p> <p>This creates a uniform appearance. Placeholders and thus text modules and mail text templates are not changed as a result.</p> <div style="display: flex; align-items: center; justify-content: space-around; margin-top: 20px;"> <div style="text-align: left;"> <p>Betrag zahlbar an Reisebüro/TraSo :</p> <p>Gesamtpreis der Reise</p> <p>Zahlbar sofort:</p> <p>offener Betrag:</p> </div> <div style="text-align: center;"> <p style="color: red;">neu: →</p> </div> <div style="text-align: left;"> <p>Betrag zahlbar an Reisebüro/TraSo</p> <p>Gesamtpreis der Reise</p> <p>Zahlbar sofort</p> <p>offener Betrag</p> </div> </div>
<p>Bug: order - documents</p> <p>During the dunning run, a display error occurred in the order in the "documents" area in the "document type" column. The incorrect dunning level was displayed. Now the correct dunning levels are generated and displayed again.</p>

3. Accounting

description
<p>Bug: advanced booking search – evaluations</p> <p>In accounting evaluations such as the profit and loss statement or the business assessment analysis, the date picker sometimes did not work correctly. This has been fixed so that changing the data within the evaluations no longer leads to incorrect date entries.</p>

Legend

Extension = Software extension, new function may be associated with additional costs. Please contact your support if you are interested, we will be happy to help you with advice.

Bugfix = Fixing of errors
