Legend	2

1. General

Description
<p>Extension: Optimization of the extended order search:</p> <p>The evaluations of the extended order search > Ticket for report type “Alliance”, as well as > Lists > Transfer and > Lists > Services have been optimized. All previous functions are available as usual. The determination of results has been accelerated.</p>
<p>Extension: Dashboard > Support-App</p> <p>The contact details for xMid Support have been expanded on the xMid start page (Dashboard). The telephone support times have been added in addition to the service desk link.</p> 

2. xTour

Description
<p>Bugfix: Multiple room bookings</p> <p>With xTour bookings, it is now possible to book more than one room of the same category in one booking. The price is doubled or tripled according to the room requested and the room price from xTour is taken as the basis.</p>

Legend
